

## Rewind2025: Looking Back at a Powerful Year of Growth and Connection

### Description

## Happy New Year, Everyone!

As we step into 2026, the Tech Assistant for Blind family is happy to wish everyone a very Happy New Year.

The year 2025 was special, busy, and full of learning for us. It was a year where ideas became reality and the community grew stronger. Your support, trust, and feedback helped us at every step, and we are truly thankful.

## Reflecting on 2025: A Year of Major Launches and Achievements

In 2025, our main goal was to make technology more useful, practical, and friendly for visually impaired users.

This year brought many new tools, events, and important milestones.

### 1. Launch of LensTalk – Live AI Assistant

One of the biggest highlights of 2025 was the launch of LensTalk. It is a live AI assistant that works with voice, camera, and laptop screen. LensTalk helps users understand their surroundings, read content, and interact easily without using hands. This tool created a new way of real-time support for our users.

### 2. Launch of Advanced Audio Tools

In 2025, we launched many audio-related tools on our website. The most demanded tool was the **Voice Over and Audio Ducking** tool.

Along with this, we also introduced:

- Audio Trimmer
- Audio Mixer
- Audio Merger

All these tools work fully on the web and come with many options. They helped users edit audio in a simple and easy way.

---

### 3. PDF and Other Utility Tools

We also published many PDF tools and other utility tools during the year. These tools helped users read, convert, and manage documents more comfortably.

### 4. Launch of the Tech Assistant Application

In April 2025, we officially launched the Tech Assistant application. This was a big step for us. The app helped users access our tools and services in one place.

One of the biggest achievements of the app launch was reaching **1,000+ app installations in less than 24 hours**. This response showed the trust and excitement of our users.

### Challenges Faced and Lessons Learned

Along with success, 2025 also taught us important lessons. Just after the app launch, some users faced issues while using the application. We understand that this created inconvenience for many users. Our team worked quickly, identified the problems, and fixed them in a short time.

Similarly, due to server downtime, our website also faced some temporary issues during the year. These moments were difficult, but they helped us improve our systems and monitoring. We learned a lot from these challenges and used them to make our platform more stable and reliable.

## Events and Competitions in 2025

### Debate Competition – March 2025

In March, we organized a debate competition on the topic of technology. Participants shared their ideas and thoughts about technology and its role in daily life.

### Tech Competition – July & August 2025

A tech competition was held in July, and its grand finale took place on August 5.

The most memorable moment of the year was the Tech Assistant for Blind team meet in Mumbai during the grand finale. All team members met in person, making it a very emotional and special experience.

## Seminars and Outreach Programs

We conducted seminars at:

- Blind People's Association (Ahmedabad)

Note: This PDF is provided as a portable format of our content. The PDF's original copyright holder is Tech Assistant for Blind foundation, Inc. Any copying, redistribution, or rebranding is not allowed unless proper permission is obtained from us.

- National Association for the Blind (Mumbai)
- 

These seminars focused on technology awareness and digital learning for visually impaired users.

## YouTube Channel Achievements in 2025

Our YouTube channel grew strongly during the year.

- Gained 3,000+ new subscribers in 2025
- Received 6,000+ comments
- Crossed 1,000,000+ views in one year
- Uploaded around 500 videos during the year

### Major Channel Milestones

- Completed 250 Q&A videos
- Total videos reached 2,000
- Uploaded 50 videos in a single month
- Reached 17,000 subscribers overall

## Website Growth and New Tools

Our website also showed strong growth in 2025.

- Crossed 1.5 million+ visits
- Published 10+ new tools during the year

This growth showed how much users trust and depend on our platform.

## Moving Forward with Hope

The year 2025 had both good moments and tough moments. Every challenge made us stronger, and every success gave us motivation. None of this would be possible without your support and belief in us.

As we move into 2026, we promise to keep learning, improving, and working towards a more inclusive digital world.

### Once again, Happy New Year!

Let us continue this journey together.
